

shopify 사전작업

고객의 store를 AcrossB 계정에 등록하기는  고객 스토어의 access key 얻는 방법 1단계 참고

1. Shopify partner 접속.

- a.  store 로그인 정보 shopify 부분 참고

2. 앱 생성하기

- AcrossB 파트너 계정, 대시보드에서 Apps > Create App 선택
- Custom App 선택 (한 고객을 위한 앱)
- App name 입력 (ex. KellyToyShopApp)
- App URL 입력

형식.) **<baseURL>/auth-request/shopify/{customerId}-
{storeName}/oauth**

ex.) https://a67e5673f757.ngrok.io/auth-request/shopify/gyu-Shopify_us/oauth

- DB customer table 의 고객 정보와 위의 주소 정보를 일치 시켜야 함
 - customerId : customer.id (ex. gyu)
 - storeName: connectedStores 내부의 key (ex. Shopify_us)
- Redirection URLs 입력.

형식.) **<baseURL>/auth-request/shopify/{customerId}-
{storeName}/oauth/callback**

- 앱 인증 주소에 callback 부분만 추가해서 적어 준다.

App setup

App information

This information will be used to identify your app.

App name

intern-test2

API contact email

partner-admin@acrossb.net

We'll use this email to contact you about API issues (such as Webhook failures).

URLs

Shopify merchants access your app through the URLs you specify here.

App URL

https://a67e5673f757.ngrok.io/auth-request/shopify/gyu-Shopify_us/oauth

Preferences URL (optional)

e.g. https://example.com/preferences

Allowed redirection URL(s)

https://a67e5673f757.ngrok.io/auth-request/shopify/gyu-Shopify_us/oauth/callback

You must include at least one redirect URL before making your app public. Merchants are redirected to these allowed URLs after the app is installed. [Learn more about redirection URLs.](#)

3. install app link 생성

- a. 생성한 app을 클릭해 상세 정보 페이지로 들어간 후 app link 생성 버튼 클릭 (이미 생성한 적이 있기 때문에 Refresh link)

Merchant install link

Install link has expired

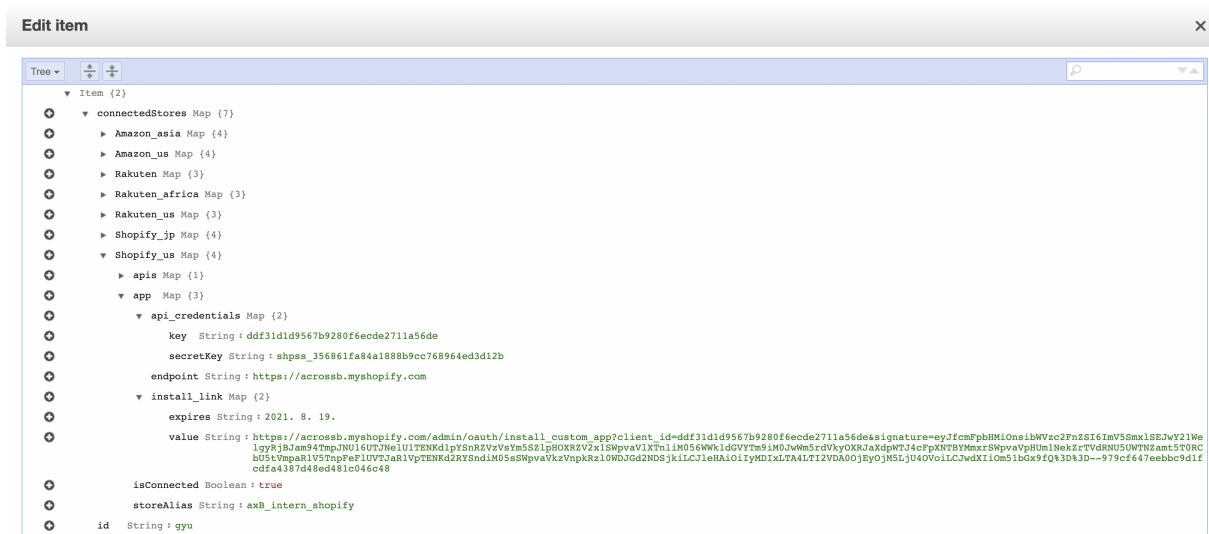

Last link was generated: Aug 2, 2021

Refresh and share the new link with the merchant to install your app on **acrossb.myshopify.com**.

Refresh link

4. DynamoDB에 저장.

- `connectedStores.{storeName}.app.api_credentials.key` : API keys
- `connectedStores.{storeName}.app.api_credentials.secretKey` : API secret keys
- `connectedStores.{storeName}.app.install_link.value` : 링크 생성 후 7일 뒤의 날짜
- `connectedStores.{storeName}.app.install_link.value` : Merchant install link
- `connectedStores.{storeName}.app.endpoint` : shopify 스토어의 url. (지금은 테스트 이기 때문에 `acrossb` 계정의 스토어)

Custom app

Build for your client without Shopify review. Test by installing on development stores, and connect your app to a single merchant.
